To Whom it May Concern:

**Subject: Paul Nielsen Office Furniture Consultants Ltd.**

We commissioned Paul Nielsen Office Furniture Consultants Ltd. to prepare a complete layout of our new office facilities and act on our behalf with office furniture distributors to ensure the product representation would be indicative to our vision for our new offices.

Paul and his team worked with our Architectural Designer to ensure all office dimensions were accurate and compatible with his furniture layouts. Once the designs were approved and the furniture was selected and ordered, Paul then arranged to have our existing furniture moved and set up at our new location, scheduled so there would be no confusion with delivery of the new office furniture. In addition, he arranged to have our existing boardroom table cut down, refinished delivered and set up for our training centre. Workmanship was outstanding.

I feel confident in offering this reference and based on our experience I can full heartily endorse Paul Nielsen Office Furniture Consultants Ltd. to make any task in the design, acquisition, moving and setup of office furnishings a seamless and pleasurable experience.

Should you wish to discuss this matter further please feel free to contact me at 780.448.4973.
